

LG PRIVAT

(also known as TL11G and LG Government)

* GOVERNMENT AUTHORISED ONLY * C TICK AUTHORISATION N1581

The **LG PRIVAT** (also known as TL11G and LG Government) is an advanced electronic lock specifically designed for locking all Australian government B-Class containers and cabinets.

APPLICATIONS

- ⊕ High Security for new government B-Class containers & cabinets.
- ⊕ Upgrade security for existing B-Class containers and cabinets by retrofitting where Chatwood Milner manifold locks are fitted as well as all other B-Class locks.

OPTIONS, VARIATIONS AND ACCESSORIES

- ⊕ Approved in deadbolt only but is available in swingbolt, spring bolt and redundant lock configurations.
- ⊕ Security seals and special screws included.
- ⊕ Retrofit kit to suit containers & cabinets with existing Chatwood Milner locks.
- ⊕ Can be fitted in place of your old mechanical locks on a B-Class container.
- ⊕ Available in 9-User Model described above. This model available only upon approval.
- ⊕ LG Privat/TL11G Audit Kit.

LG PRIVAT

STANDARD FEATURES

- ⊕ Easy to use and reliable.
- ⊕ Easy locking reduces chance of staff leaving container open.
- ⊕ Spy-proof input pad preventing covert entry.
- ⊕ Wrong try penalty means that attempting to guess the combination more than 4 times will render the lock inactive for a period of 5 minutes.
- ⊕ Unlike mechanical locks, codes are easy to change and therefore do not require a locksmith.
- ⊕ Keypad gives audio and visual signal for ease of use.
- ⊕ Environmentally tested from -10°C to 85°C
- ⊕ All vital components are located within the lock body for maximum security.
- ⊕ Operates on a Duracell 9V alkaline battery which gives up to 2560 openings.
- ⊕ Low battery level triggers an audible warning. The lock will retain all settings when changing the battery.
- ⊕ Certified to both Group 1 Underwriters Laboratory (UL) and European VDS KL2 manipulation proof rating. Please contact us for other approvals.
- ⊕ Internal bolt sensor allows the bolt to be retracted only once per opening. The audit trail reports details of all openings and closings.
- ⊕ Polyfuse provides unique protection to the lock by protecting it against electric shock attacks.

PLUS SPECIAL LG PRIVAT FEATURES

- ⊕ High security 8-digit combination gives up to 100,000,000 possible permutations.
- ⊕ SSEC endorsed for new and existing containers and cabinets.
- ⊕ 480-event audit trail with real time and date ID stamp.
- ⊕ The audit trail can be downloaded by connecting a standard laptop to the lock using the side port and the simple point and click audit software.
- ⊕ Available in standard or extended bolt lengths.
- ⊕ Retrofitting kit available.
- ⊕ 9-User Model (available only upon approval) enables up to 9 separate users (no code sharing for multiple access cabinets).
